### TAKE A RESOURCES INVENTORY

Rundown of everything you currently have at your disposal that you can use in your business; think as holistically as possible; try making 3 lists, a personal one, a professional one, and a social one. Then comb through results alone and with a trusted advisor (preferably a mentor more advanced than yourself).

### TAKE AN INVESTMENT INVENTORY

How much \$\$ have you invested to date; what do you have left to invest; what are your personal sources of investment. How can you increase your investing capital? How realistic is my current pace; can you apply for loans? Do you have assets, debts you can swap, anything to create financial leverage in your journey?
